

Dear Lill:

Many thanks for your long letter of June 5th. We are glad that you feel at home in Menton, and we do hope that the returning pain in your leg had to do with the cold weather. I am sorry that I missed the missing recipe from Dr. Landis, and now when I called him on the phone, I missed him also. He is now away until beginning of July. but I bet that he is now in your neighborhood, as he has a small place, with the following address: La Ferme aux Lerap, Riot. I am not quite sure about the name, but you could try to drop him a few lines, if you feel so inclined.

When I called Carola, she had already been in touch both with you and the electrician, so I do hope that some of the missing things will be attended to. We are not all too optimistic, with regard to all the promises that are made, but above all we do hope that you will not have too much trouble with these things.

Now with regard to the "book": When and where should ^wwe meet to discuss the beginnings and also a plan? Had you been thinking of coming to Sweden this summer? I would, if yes, suggest July, as August in Fryksås might be too cool for you, - we have often had not more than 50 F there during the day, although the air is very invigorating. *

As to the languages, I think that you would need only to learn Swedish and Russian. As to the material I have here, this comprises: 1/Correspondence between my father and myself for 1936, an important year for me, 2/Correspondence between AB Cryptograph and A.G.Dam, for the years 1920 - 1923, and 3/ Minutes of the AB Cryptograph, during that company life, from 1916 to 1928, contracts, lists of patents etc. Also quantities of descriptions and pictures of old and newer machines. - Now is the question, what should be done with all this?

It was much too kind to offer us the two chaiselongues, and we thank you both most sincerely! They will surely come to a very good use when we are in Menton.

I have now to end this short letter, as we have visitors coming both today and to morrow /Dr.Hell tomorrow/. Then most of the week will also be very busy, and we shall be happy when we leave on the 17th for Sweden.

All the best wishes to you both Affectionately Annie & *my*

* the best place would of course be Aug. but we won't be back here before Sept. 15.
