

Munich Feb 27, 1967.

Dear Will,

I was looking through my old photos the other day, and I found two enlargements (Kodachrome), one with you, in a brown shirt, and the other with both of us. This second photo must have been taken by Annie in Greenwich, 43-44?

I am going to bring the photos to our museum cum library, and I thought it would be good if there could be your & mine signatures placed under the photos. I do hope you do not mind my asking for your autographs, and I enclose a blank, with indications where the name should be put.

We had our first really warm day yesterday, quite a change

REF ID: A2263348  
from the cold weather we  
have been having here - and  
the snow (lots of it) which  
we had here last week.

Guemar's wife does the house-  
keeping for me at present. For  
Easter I am going to Sweden  
and early in April Margareta  
will come over to keep me  
company, through the summer  
(which we will spend in Sweden).  
So the children are doing their  
best to help me out.

I do hope you are both well,  
and I send you my  
best regards.

Affectionately

David.

at Crypto AG, we are keeping  
to the forefront with electronics.  
But we have also developed  
a most interesting mechanism,  
based on electro-magnetism (less

experience than electronics)
