S. Wesley Reynolds
National Security Agency
Fort George G. Meade
Maryland

Dear Mr. Reynolds:

Let me introduce myself. I used to work for NSA during the late war and again around 1948-1950. At present I am the Editor and Publisher of the above organization.

One of our members has turned in a book review of "German Military Ciphers from February to November 1918" a technical paper of the Signal Intelligence Section, War Plans and Training Division, Office of the Chief Signal Officer, War Department, and published through the Government Printing Office, Washington 1935.

He tells me that while this material was once "classified material", it has now been de-classified, and may be obtained in book form through the University Microfilms, of Ann Arbor, Michigan. ✓

I have only his say-so to go on, and hence would clear through you as to whether this information may be made public to our membership, many of whom occupy foreign countries at the present time. In other words, I prefer to be clear on the matter.

Sincerely Yours,

William G. Bryan
