Garrison B. Coverdale, Major General, U. S. Army
Chief of Staff
National Security Agency
Ft. George G. Meade, Maryland

Dear Major General:

Thank you for your reply = Serial N 3120 of July 10th, 1958.

While we did not intend ourselves to make public for our members the contents of the technical paper: "German Military Ciphers from February to November 1918", we did, if permitted plan on telling them where the material could be obtained. We have learned that the University Microfilms, Ann Arbor Michigan have converted a microfilm copy of this context into a full-size paper-bound book, and are offering it to the general public (not merely the members of our organization) for \$3.40.

Do you care to comment further on this matter?

Sincerely Yours,

William G. Bryan, Editor
American Cryptogram Association
