Polden, 23 Oct 53

EO 3.3(h)(2)  
PL 86-36/50 USC 3605

EW work &amp; comments on U.S. efforts

Referred to

concentrating on finding new types  
Uses fewer men but high quality - scientists  
& experimental officers, radar engineers  
& highly tech radar operators

US concentrating on OB -

Best effort in USAF - which have  
coord work of USAFSS, SAC,  
~~ATTC~~ - by far best. AFSS does  
all ground. Airborne by SAC &  
Theater AF.

Sig C - Crickshaw (Civ) only  
Army man in EW who knows both  
EW & Intelligence. [Was a  
Lt Col]

Army & Navy coop in 1 field - ANBELT  
There "between 2 sides"  
But the 2 reports ANBELT has produced  
are "highly suspect" - System uses  
IBM far too much - 5x way of reporting  
but analysts don't come into picture  
until after cards have been made -  
Hence draw slightly incorrect  
conclusions. Army effort unbalanced  
& not prod any useful results &  
wait - until several yrs.

US Navy - has Naval Research  
D. Forezen resp for prod range of  
received all US [ ] services  
using. Polden has high respect for  
Loewen.

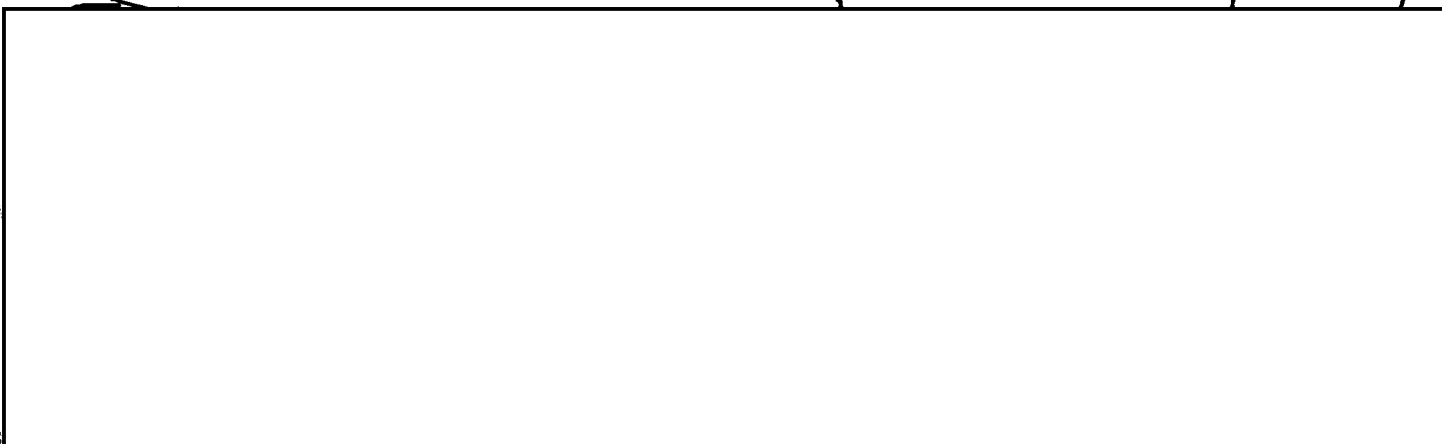

US Navy Ferret ops not as good as  
USAF (airborne)

On Intell Side Navy - Carl van Howe - as  
good as Crickshaw & has don't see

After Action

very Navy effort <sup>not better</sup> REF ID: A66512 Howeth not even interested in elint & Capt Carmichael still in 1914-18 war period. But who's men & Howe Navy has 2 very good men indeed. USAF not keen to coop with Navy & Army.

3 U.S. services have got together without CIA knowledge & about to offer Scandin countries incl [redacted] lot of ECM equipment which being supplied on Air Force to Air Force basis. Polden fears those countries will set up duplicate & internally competing organizations. [redacted] would fight [redacted] set up.

[redacted] best at elint of the 4; [redacted] next; [redacted] not being dealt with because [redacted] fruit like [redacted] security.

It would be very desirable to have coord in U.S. to coord. U.S. efforts, determine what supplies to furnish foreign nations, etc.
