M/R: This letter gives a brief outline of plans of NSASAB special study group and requests that members of the Advisory Board who are not directly involved in the work plan to attend a special meeting to be held 11 Sept. in order to become more fully informed of the committee's work and to contribute to the final phases thereof.

W.F.Friedman/S/ASST/60493/28 Jul 53-cby

NATIONAL SECURITY AGENCY
WASHINGTON 25, D. C.

Serial:

In accordance with General Canine's letter to me, of 26 June, a committee has been established under the chairmanship of Prof. Robertson, composed of some members of NSASAB, and some others selected for various special reasons.

The schedule of the Committee for carrying out its work runs as follows:

During the weeks of 27 July and 2 August, the committee will meet briefly in Washington, will then visit a number of installations and return to Washington, where the remaining time will be devoted to analyzing their problem and to a division of labor among the Committee members.

On 31 August, the committee will reconvene in Washington and will work together until 11 September, producing it is hoped, the first draft of a report. On 11 September, in the Conference Room 232-B, Building 19, 3801 Nebraska Avenue, there will be a special meeting of NSASAB, to discuss the work of the committee and to consider its report as it then stands. A second item of business will probably be the consideration of an informal report on the work of SCAMP.

Those members of NSASAB who are not directly involved in the work of Prof. Robertson's committee are invited not only to the special meeting of the Advisory Board, but also to come as early in September as they can, in order to become more fully informed of the committee's work and to contribute to the final phases thereof.

Sincerely,

STEWART S. CAIRNS
Chairman
