USCIB: 13.5/67

24 May 1954

~~TOP SECRET - U.S. EYES ONLY~~

MEMORANDUM FOR THE MEMBERS OF USCIB:

Subject: Possible Compromises of COMINT Information.

1. Attached for your information is a chart listing, by activity, eight cases evaluated as compromises of COMINT information due to ineffective COMSEC practices.

2. It should be noted that a total of 38 cases evaluated as compromises have occurred during the period 1 May 1953 - 23 January 1954, 19 of which were due to transmission in P/L and 19 due to faulty encryption, equipment failure, etc.

3. This matter has been brought to the attention of the responsible authorities and it is considered that the action taken, and contemplated, by the Director, NSA, will bring about an amelioration of this situation. Members are reminded, however, that the backlog of cases occurring prior to 1 May 1954 and still under evaluation may be expected to produce a few more compromises before the full effect of USCIB Directive No. 9 will become noticeable.

RUFUS L. TAYLOR
Captain, U. S. Navy
Executive Secretary, USCIB
